SUMMARY

Production Support Engineer with a background in backend development and application support for the Digital CRM Portal. Skilled in SQL, Unix/Linux, Python scripting, and AWS monitoring to investigate incidents and support application availability. Experienced in ETL job monitoring, batch troubleshooting, and approved ticket-based data corrections. Familiar with Java fundamentals and REST API testing, with experience collaborating with development and infrastructure teams to resolve issues, validate fixes, and document solutions.

TECHNICAL SKILLS

Application & Production Support: L2 Application Support, Digital CRM Portal Support, Incident Management, Service Requests, SLA Tracking, Issue Escalation, Root Cause Investigation

Java & Backend Technologies: Java, Object-Oriented Programming, Exception Handling, Collections, JavaScript, Node.js, REST APIs

Unix/Linux & Scripting: Unix/Linux Commands, Shell Scripting, Python, Log Analysis, File Permissions, Process Monitoring

SQL & Databases: MySQL, PostgreSQL, Joins, Subqueries, CTEs, Data Validation, Data Reconciliation, Approved Ticket-Based Data Modifications

ETL & Batch Monitoring: Scheduled Job Monitoring, Execution Log Analysis, Failed Job Investigation, File Availability Checks, Data Load Validation, Controlled Job Restarts

AWS & Monitoring: Amazon CloudWatch, Amazon S3, Application Monitoring, Alert Investigation, IAM Fundamentals

API Testing & Troubleshooting: Postman, JSON, Request and Response Validation, HTTP Status Codes, API Issue Reproduction

Ticketing & Tools: ServiceNow, Jira, Git, GitHub, VS Code, Incident Documentation, Shift Handover

Environments: Development, UAT, Production, Unix/Linux, Windows

EXPERIENCE

Meta – Production Support Engineer **Oct 2025 – Present**

- Provided L2 production support by investigating incidents, assessing operational impact, and collaborating with engineering and infrastructure teams to resolve issues and restore system availability.
- Monitored scheduled ETL jobs and data processing workflows, reviewed execution logs, and investigated failures, delays, and incomplete data loads to support timely downstream processing.
- Performed ticket-based data corrections using SQL, validating affected records, obtaining required approvals, and verifying results after updates to maintain data accuracy.
- Used Unix/Linux commands to inspect application logs, check processes and file availability, and troubleshoot issues affecting production applications and batch processing.
- Monitored AWS resources and application logs through Amazon CloudWatch, investigated alerts, and supported resolution of processing failures and application errors.
- Managed incidents and service requests through ServiceNow and Jira, documenting investigation steps, tracking SLA deadlines, escalating unresolved issues, and maintaining shift handover notes.

HCL Technologies – Associate Software Engineer **Nov 2021 – Jun 2023**

- Developed and maintained backend services for the TAGIC Health insurance application using Node.js and JavaScript, supporting business requirements and application enhancements.
- Designed and enhanced REST APIs to enable data exchange between frontend interfaces and backend services across application workflows.
- Implemented server-side input validation, structured error handling, and business logic to improve API reliability and maintain consistent application behavior.
- Conducted API testing using Postman to verify request and response formats, validate status codes, and investigate integration defects.
- Updated interface components using HTML and CSS and collaborated with frontend developers to integrate APIs and resolve functionality issues.
- Supported application deployment and monitoring activities on AWS, investigating runtime issues and assisting with troubleshooting. Managed development tasks and defects through Jira, collaborating with developers and QA teams to clarify requirements and verify fixes.

EDUCATION

Master of Science in Computer Science **Aug 2023 – May 2025**
University of North Texas, Denton, Texas, USA

Bachelor's in electrical and Electronics Engineering **Jul 2015 – Jun 2019**
PBR Viswodaya Engineering College, AP, India
